

To whom it may concern:

The Lee County Clerk's office is now electronically certifying Court and Official Records using Clerk E-Certify by Triedata. Please accept this e-certified record as you would a certified document with a wet stamp or raised seal. E-certified documents meet all legal requirements required by the State of Florida for record certification.

E-certifications help combat fraudulent deeds, mortgages and other county public records. This technology uses advanced encrypted features to produce tamperproof, reusable e-certified PDF documents. If you are concerned about the authenticity of a document, you can verify it using its unique reference number or scanning the QR code provided on the cover page.

If you have any further questions, please feel free to contact our office at 239-533-5000.

Sincerely,

Kevin Karnes

Clerk of the Court & Comptroller
Lee County
